## **DETAILED ACTION**

### ***Drawings***

1. The replacement drawing was received on 16 November 2006. This drawing is accepted.

### **EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kirk Dorius on 13 December 2006.

The application has been amended as follows:

- The title "Methods and Apparatus for a Cutting Wheel" has been replaced with --Cutting Wheel--.
- In claim 16 lines 2-3, the phrase "overcome said interference fit to remove said first axle end from said first axle retainer" has been replaced with --overcome an interference fit to remove said first axle end from said first opening of said first axle retainer--.

### ***Allowable Subject Matter***

3. Claims 1-12 and 14-20 are allowed.
4. The following is an examiner's statement of reasons for allowance: Claims 1-12 and 14-20 are allowable because of the cutting wheel apparatus with pivotally

connected handle portions with respective first and second axle retainers with respective first and second openings that are not coincident when the handle is in the closed position as set forth in the claims. BE-1013992 fails to disclose the first and second openings (23) are not coincident when the handle is in the closed position and in view of the location of the pivot axis non-coincidental openings would not allow the apparatus to function as intended. None of the prior art cited discloses a cutting wheel apparatus that incorporates the use of pivotally connected handle portions with respective first and second axle retainers with respective first and second openings that are not coincident when the handle is in the closed position to hold the blade and allow the blade to be replaced. Therefore, in view of what has been stated above, the claims are allowable over the art of record.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
